# **ABOUT THE EVENT**

Magnus Group is ecstatic to announce and welcome you to its “2<sup>nd</sup> Edition of International Congress on Clinical Immunology and Allergy” (ICIA 2023) which is going to be held virtually during **October 23-25, 2023 in Boston, USA.**

The global summit will be focused on the theme “*Understanding Allergies and Boosting Immunity through Novel Research.*”

ICIA 2023 is the finest place to expand one’s scientific knowledge by sharing it through oral and poster presentations and to form a strong network with eminent people, key decision makers from academic institutions, healthcare institutes, immunological societies, the vaccine industry, and biotech organizations from all over the world.

The conference intends to instill a strong belief that by integrating immunology and its characteristics with other health and medical sciences, all other health and medical sciences can provide healthy circumstances. There are numerous opportunities to get involved with the researchers, scientists, clinicians, academicians, biotechnologists, pharmacists, immunologists, allergy specialists, industry delegates, and individuals sharing an interest in immunology to contribute to the goal of promoting and supporting excellence in immunology research, and clinical practice for the benefit of animal and human health and welfare. Plenary talks, symposia, keynote sessions, as well as several collaborative events will “open doors” to develop professional bonds with related societies.

We sincerely hope you will join us at ICIA 2023 “opening doors to the world of clinical immunology and allergies” and welcome colleagues from all over the world by assisting us in bringing the premier event for the global community to fruition, making it your go-to meeting in 2023.

“

”

# CONFERENCE TOPICS

- Allergy and Immunology
- Antigen Research
- Auto-Inflammation and Autoimmunity
- Contagious Diseases and Immunology
- Microbial Immunology and Molecular Immunology
- Clinical Immunology and Laboratory Immunology
- Clinical Trials and Mechanistic Studies
- Computational Immunology
- Covid-19 and Antibodies
- Diagnostic Immunology
- HIV Immunology
- Immune Pathology and Pharmacology
- Immunoassays
- Immunodeficiency Diseases and Disorders
- Immunodermatology
- Immunogenetics
- Immunoematology
- Immunologic Assessment
- Immunological Tolerance
- Immunology of Barrier Surfaces
- Immunometabolism
- Immunomodulation
- Immunotherapies
- Immunotoxicology
- Metagenomics
- Mucosal Immunology
- Neuroimmunology and Neuroinflammatory Diseases
- Next-Generation Sequencing and High-Dimensional Phenotyping
- Immunity and Ageing
- Paediatric and Neonatal Immunity
- Primary and Secondary Immunodeficiency
- Prognosis Evaluation and Treatment Intervention
- Tumor Immunology
- Radiology Immunology
- Rare Immunological Disorders and Personalized Treatment
